

# Braukmann MiniPlus FF06-AAM

Rinsable fine filter with brass filter bowl

## APPLICATION

Rinsable MiniPlus FF06-AAM fine filters ensure a continuous supply of filtered water.

The fine filter stops the flow of particulates, for example rust particles, strands of hemp, or grains of sand. Sediment collected at the bottom of the filter bowl can simply be removed by rinsing the filter.

Compact in size, these filters were designed to fit where space is limited.

## SPECIAL FEATURES

- Simple assembly
- Filtered water supply even during rinsing
- Filter bowl of brass - suitable for hot water installations
- Filter and complete filter bowl are replaceable
- Body with female and male threads
